

Grade R

General Information

Please note: all Grade R work posted is for both classes.

Dear Grade R Parents

We will be posting activities for your child to do during this Lockdown period.

We have kept the activities within the different subjects and ask that an activity be done daily from each subject, i.e. one English and one Mathematics activity.

Please sit with your child whilst doing these activities as instructions will need to be read.

We have tried our best to ensure that they are easy to complete at home with things around the house. If for any reason you cannot complete the activity as explained please feel free to use it as a guideline and use what you do have on hand.

Kind regards
Grade R Teachers
