

## Grade 6 Social Science Geography

### Worksheet 1

Study the pictures on the following pages.

Container Ships bring goods from overseas to South Africa and take South African goods all over the world.

These containers are huge (12m long X 2.5m wide and 3m high) and so can only be loaded onto and off ships by cranes.

**These photos are of harbours in South Africa- Durban and Richards bay.**

### ***Questions***

1. What do you think these pictures are showing?
2. What could be in these containers?
3. Why would one country trade with others?
