

MS REDDY
WEEK 2- WORKSHEET: 1

NATURAL SCIENCE- GRADE:7
MEMO- SORTING AND RECYCLING MATERIALS

SORTING AND RECYCLING MATERIALS. PGS 90-93

Activity:1

1. What can be done to make it easier for people to recycle?
 - a. Having more recycling stations placed in more convenient places.
 - b. Have a recycling company pick up recycled goods.

*Any of your ideas may be acceptable.
2. What is poor waste disposal?
 - a. Poor waste disposal is when you do not dispose of waste in a proper or helpful way. It includes littering, municipality not picking up waste on a weekly basis. Not recycling waste appropriately.
3. Discuss whose responsibility it is to make sure that waste is correctly disposed of?

There are many role players and not just the municipality.

As individuals we are all equally responsible. It is our individual responsibility not to litter, to pick up litter that we see and dispose of it correctly. We all have the responsibility to recycle and dispose of organic waste in compost heaps if possible.

It is our responsibility as a community to take responsibility to keep our streets, parks, schools and communal areas clean and litter free. To educate the people about the importance of reducing, recycling and reducing waste.
