

Are cell phone towers bad for your health? Pg.'s 115

Many people are concerned about the health risks that cell phone towers might hold for people, animals and plants living near towers. Others might feel there is no evidence of any health risks.

Do you think cell phone towers pose a health risk to those living near them? Discuss this question in your technology book in a paragraph format. Present your research on an A4 size poster in your tech book, either warning your fellow learners or disagreeing with the belief that there are health risks.
