

# English

## Grade 2: Week 3

Good morning boys and girls. Have a happy Day 2.

😊 Day 2

### Reading

Practise reading the following story until you can read it easily by yourself.

### All About Summer

There are four seasons in every year: spring, summer, autumn and winter. Of all the seasons, summer is the warmest. It is also the season with the most amount of daylight hours. This means that the sun comes up earlier

and goes down later than it does in other seasons. Our

summer months are December, January and February. The seasons depend on the side of the earth that is facing the sun. When it is summer here, other parts of the

world are having winter because their part of the world is not tilted toward the sun. Because of the warm weather and increased sunlight, plants grow best during the summer.

## Discussion

- Why is summer different from other seasons?
- Why do plants grow best in summer?
- What is your favourite season? Why?

## Handwriting

- ✓ Practise the letters in an exercise book. Do two rows. Remember to start **N** at the top, lift your pencil, do the line across and then up straight.

- The small **n** → start from the top, go down, around and down again. Do not lift your pencil.
- ✓ Do not forget to skip lines in your book.

Nn Nn Nn Nn Nn Nn Nn

- ✓ Practise writing the sentence in your exercise book. Remember no letter starts at the bottom.

Nick never likes to nibble on nuts or  
noodles.

- ✓ Think of a pattern using the capital letter N.
- ✓ Draw the pattern after the sentence in your exercise book. Use your pencil crayon colours.

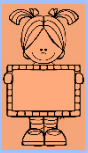

## Unit 17: -ea

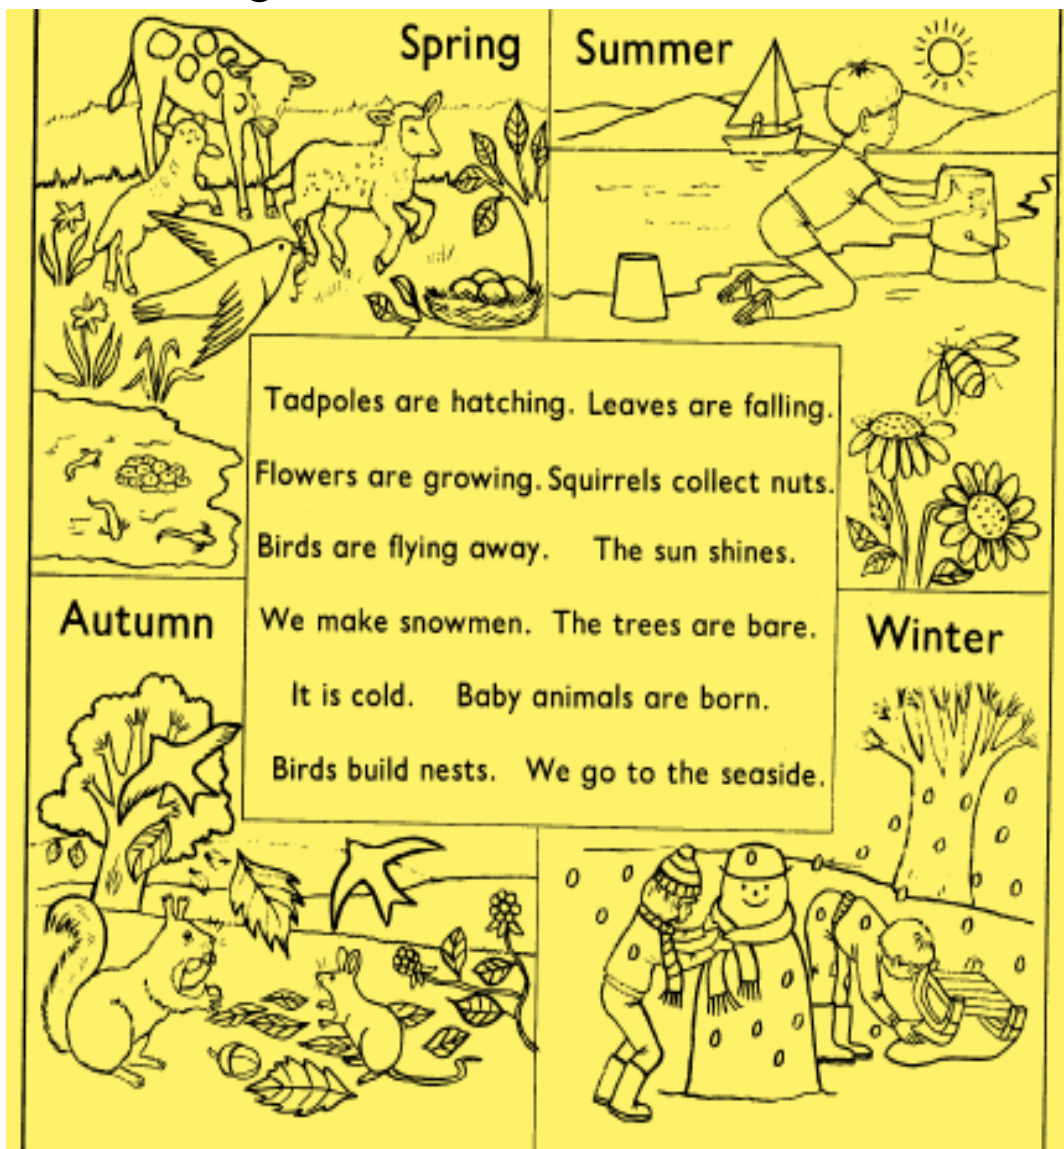

eat meat heap leaf pea cream dream team weak  
each

High frequency words: went their they

- Practise writing each word in your exercise book.  
Keep practising until you know each word well.
- Please choose words from Unit 17 and write **3** sentences. Try to use the High Frequency words as well. Each sentence must start with a capital letter and end with a full stop.

## Writing Activity 1

- ❖ *Clue* → Look carefully at the above picture.
- ❖ What happens at different times of the year? Find the sentences in the middle to match the seasons and write each sentence in the correct season.
