

Working in a group

Working in a group at home

Lesson 3 week 3

Activity 3 – Page 73

- Plan a task where a few of the people in your home can work together. Give each person a job. Make sure they are able to do the job, for example, do not let your three year old brother or sister try to wash dishes in hot water! Try out a family or group task at home.
- Write down the task you are doing and report back on how everything went. Write down any challenges or positive outcomes. We will discuss your findings when we are back at school again so make sure you work excellently.
