

Activity G Memo

1. Salary = R8 000
Investment = R172,50
2. Car loan = R2 000
House loan = R3 500
Water and electricity = R1 800
Clothing account = R1 000
Groceries = R2 800
Gardener = R500
3. $R8\ 000 + R172,50 = R8\ 172,50$
4. $R2\ 000 + R3\ 500 + R1\ 800 + R1\ 000 + R2\ 800 + R500 = R11\ 600$
5. Water and electricity – use electricity wisely - fix dripping taps, shower instead of bath, only turn the geyser on for a few hours during the day.

Clothing accounts – he can buy less expensive clothing, revamp his existing wardrobe.

Food and groceries – Sanele should not waste food. He should buy in bulk when shops have specials.

Gardener – he could dispense with the gardener and do his own gardening.
