Advertising — design your own advert

- Plan the format of your advertisement: good design can make a difference!
- What is the purpose of your advertisement? Who is your target group?
- Your word choice is extremely important: use emotive words and persuasive language.
- Visual elements: size and type of font, headings, symbols and colours.

Advertising — design your own advert

- Most advertisements have a logo and a slogan.
- Advertisers use manipulative, emotive language, such as adjectives and strong verbs to influence people to buy their products or services or to persuade them to change their point of view.
- Depending on the target audience, the language could be formal or informal.
