

**WEEKLY PROGRAMME Week 3****4 – 8 May 2020****SUBJECT: NATURAL SCIENCE & TECHNOLOGY****GRADE 5 NS TECH****EDUCATOR: MRS LM EAGLE**

Good day Grade 5s, I hope you're getting used to working at home and on your own. I'm sure that you are coping well with your NS. Remember to focus on the information in your NS Textbook. I also want to encourage you to make sure you do the activities and the corrections. You see, we should learn from our mistakes – so, when we make a mistake and correct it quickly, then we are most likely to remember that work for a very long time.

So now that you know the properties of metals we are going to go on to the properties of non-metals and we will see why certain materials are chosen to make different items. Look around at different things in your home and imagine why the designer chose to make it of that particular material. Make sure you number the tasks in your Workbook correctly!

<u>DAY</u>	<u>CONCEPT</u>	<u>ACTIVITY</u>	<u>RESOURCES</u>
<b>MONDAY 04/05</b>	Identifying the properties of metal objects around you	Revise p62 Properties of Metals then do Activity 2 p62. ( <i>LD10 MEMO</i> ) Read p63 and learn about properties of specific metals. Read p64 and learn what an ALLOY is and why we plate objects with the expensive and soft metals. If you want to try Activity 3 you may, just discuss it with your parents first and get them to help you if necessary.	Textbook p 62-65 Workbook
<b>TUESDAY 05/05</b>	Developing skills for scientific investigations	Read the p66-67. You may enjoy doing Activity 4 if you'd like – there's no MEMO – but this will help you to develop good scientific practice. Complete your project from last week, if not completed.	Textbook p66-67 Workbook
<b>WEDNESDAY 06/05</b>	Properties of non-metals	Using the information on p68 make a table of the properties on non-metals (about 7) - just as you did for metals – with a colourful frame around it. ( <i>LD11 MEMO</i> ).	Textbook p68 Workbook
<b>THURSDAY 07/05</b>	Do you understand the properties of metals and non-metals?	Do Activities 5 and 6 on p69 identifying the materials used in different common objects. ( <i>LD 12 MEMO</i> ). Do <i>WORKSHEET LD 13 Gr5 T2 2020</i> . ( <i>LD13 MEMO</i> ).	Textbook p69 Workbook <i>WORKSHEET LD 13 Gr5 T2 2020</i> .
<b>FRIDAY 08 /05</b>	Memo and marking day	Mark your own work. Corrections to be done in green pen.	<i>Worksheet LD 10 MEMO Gr5 T2 2020</i> <i>Worksheet LD 11 MEMO Gr5 T2 2020</i> <i>Worksheet LD 12 MEMO Gr5 T2 2020</i> <i>Worksheet LD 13 MEMO Gr5 T2 2020</i>
